These additions are really making best use of modern technology for the benefit of our patients!

Our Facebook page is updated regularly with more helpful hints and tips from therapists, we of course, would value you liking our page and sharing with your friends, colleagues and activity groups that you belong to.

Focus on Massage -

Doneva Davidson, Cath Hutchison and Trish Dent are all available for consultations. Doneva uses aromatherapy and sports massage, Cath uses sports massage and Trish uses a combination of massage and shiatsu, which is a form of natural healing massage that uses pressure and touch, and stretching and joint mobilisation techniques. It is based on the same 'meridians' and pressure points used in acupuncture. The treatment works with the body's own subtle energy, called chi or ki, to restore its natural balance, increasing vitality and stimulating the body's own natural healing ability. Clients remain clothed throughout the treatment.
